

# Gulf Falcon Insurance (P.J.S.C.)

SecureHealth GCC Group Medical Plan — **Plan B** · Policy Wording · Document ref. GF-SH-B/2025

This wording, together with the Schedule, the Table of Benefits and any Endorsement, forms the contract of insurance. Where an Endorsement conflicts with the Table of Benefits or these conditions, **the Endorsement prevails**. All amounts are in UAE Dirham (AED).

## Section 1 — Definitions

| Term                                    | Meaning                                                                                                                                                                                                               |
|-----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Policy Year</b>                      | The period of 12 consecutive months from the Inception Date stated in the Schedule. All annual limits reset at the start of each Policy Year.                                                                         |
| <b>Network Provider</b>                 | A hospital, clinic or pharmacy listed in the Insurer's approved provider directory. Treatment elsewhere is treated as <b>Out-of-Network</b> .                                                                         |
| <b>Deductible</b>                       | A fixed amount the Member pays per outpatient consultation visit <b>before</b> coinsurance is applied. The Deductible applies once per consultation visit and only to the Outpatient Consultation benefit.            |
| <b>Coinsurance</b>                      | The percentage of the <b>eligible amount</b> (after any Deductible) that the Member pays. The remainder is borne by the Insurer, subject to limits.                                                                   |
| <b>Eligible Amount</b>                  | The billed amount for a covered service, capped at Reasonable & Customary (R&C) charges. Amounts above R&C are never payable by the Insurer.                                                                          |
| <b>Chronic / Pre-existing Condition</b> | A condition for which the Member received advice, treatment or medication, or displayed symptoms, before the Inception Date, including any condition declared at enrolment. See Exclusion 4.2 for the waiting period. |
| <b>Pre-authorisation</b>                | Written approval obtained from the Insurer before treatment. See General Condition 3.                                                                                                                                 |
| <b>Day-Case / Inpatient</b>             | Treatment requiring admission to a hospital. Surgical procedures are treated under the Inpatient & Surgery benefit whether or not an overnight stay occurs.                                                           |

## Section 2 — Table of Benefits (Plan B)

**Annual Aggregate Limit: AED 250,000** — the maximum the Insurer will pay across all benefits in a Policy Year. Each benefit below is also subject to its own annual sub-limit.

| Benefit                                 | Annual sub-limit         | Member share — In-Network                              | Member share — Out-of-Network                     |
|-----------------------------------------|--------------------------|--------------------------------------------------------|---------------------------------------------------|
| <b>Outpatient Consultation</b>          | AED 8,000                | AED 50 deductible per visit, then 10% coinsurance      | AED 50 deductible per visit, then 30% coinsurance |
| <b>Diagnostics (lab &amp; imaging)</b>  | AED 10,000               | 10% coinsurance (no deductible)                        | 30% coinsurance (no deductible)                   |
| <b>Prescribed Medication (Pharmacy)</b> | AED 6,000                | 20% coinsurance                                        | Not covered                                       |
| <b>Physiotherapy</b>                    | AED 2,500                | 20% coinsurance                                        | 30% coinsurance                                   |
| <b>Inpatient &amp; Surgery</b>          | (within Aggregate Limit) | 0% — full cover (pre-authorisation required, see GC-3) | 20% coinsurance                                   |

*Footnote:* sub-limits and member shares above are subject to any Endorsement in Section 5.

## Section 3 — General Conditions

### GC-1 — Order of calculation

For each eligible claim the Insurer applies, **in this order**: (a) cap the billed amount at the Eligible Amount; (b) subtract any Deductible; (c) apply the Member coinsurance percentage to the remainder; (d) the Insurer pays the balance, subject to the benefit sub-limit and the Annual Aggregate Limit.

### GC-2 — Sub-limits and aggregate

The Insurer's total payment in any benefit category shall not exceed that benefit's annual sub-limit. The Insurer's total payment across all benefits shall not exceed the Annual Aggregate Limit. Where a limit is reached, the Member is liable for eligible expenses beyond it.

### GC-3 — Pre-authorisation

Elective Inpatient & Surgery treatment requires Pre-authorisation at least 48 hours before admission (emergencies excepted). Where elective Inpatient & Surgery treatment is undertaken **without** Pre-authorisation, the Insurer reduces the amount otherwise payable for that treatment by **20%**; the Member bears the reduction.

### GC-4 — Deductible

The Deductible in Section 2 applies once per Outpatient Consultation visit and to no other benefit.

## Section 4 — Exclusions

---

4.1 — General. The Insurer does not pay for: cosmetic treatment; self-inflicted injury; experimental or unproven treatment; treatment outside the Policy Year; or charges above Reasonable & Customary.

4.2 — Chronic / Pre-existing waiting period. Treatment of a Chronic or Pre-existing Condition (including any condition declared at enrolment) is **not payable for the first six (6) months** from the Inception Date. Claims for such a condition with a service date on or after the end of the waiting period are payable under the relevant benefit. Acute conditions unrelated to the declared Chronic/Pre-existing Condition are not subject to this waiting period.

## Section 5 — Endorsement E1 (Physiotherapy Enhancement)

---

**Effective from the Inception Date.** Notwithstanding the Table of Benefits, for the **Physiotherapy** benefit: (i) the Member coinsurance is reduced to **10%** for In-Network treatment; and (ii) the annual sub-limit is increased to **AED 4,000**. All other terms of the Physiotherapy benefit are unchanged. This Endorsement prevails over Section 2.
